

# The Missouri Arbor Award of Excellence

The trees of a community are visible and valuable assets, and contribute greatly to the appearance and character of any town. They are a part of the public infrastructure and are just as important as the streets, sewers and utilities. Often, trees do not receive the attention or care they deserve. Tree planting alone is commendable, but may have little long-term value without proper maintenance.

The **Missouri Arbor Award of Excellence** recognizes those who act as good stewards for trees in our individual communities. Any significant program, project or event that contributes to the care or maintenance of trees in our towns and cities could qualify for an award. This award is intended to recognize projects that demonstrate a sustained overall effort to care for trees.

## Award Categories

### Municipalities/Governments

Recognizes a municipality, county or state government entity for significant advances in their community forestry program in the last two years. Examples include developing a new tree ordinance, an effective tree board, implementing a tree inventory, community tree management plan or exemplary tree management work.

### Organization

Recognizes an outstanding community forestry project in the last two years by a volunteer group, school district, university, youth group, partnership or service club. Examples include tree care work, educational activities, tree planting or tree preservation programs. Projects may be on public or private property.

### Individual

Same as Organization category but recognizes an individual. Work done by a professional must be beyond his or her normal work load. Work done by a volunteer or student also will be considered.

### Business/Institution

Recognizes an outstanding community forestry project in the last two years by a commercial entity including utility providers, businesses and hospitals. Examples include tree care work, educational activities, tree preservation or tree planting.

## Judging

All participating projects will be inspected by representatives of the Missouri Department of Conservation (MDC). Winners will be selected by a panel of experts from MDC and the Missouri Community Forestry Council (MCFC). Criteria for judging include:

- Size of affected area or percentage of the community forest involved
- Effectiveness of the tree care work, event or program
- Clarity of information
- Use of sound tree management principles
- Innovation/uniqueness
- Sustained effort

## Awards

Winners will receive:

- A handsome framed award
- Two full registration scholarships to the MCFC Annual Conference
- A specially selected community forestry reference book
- Winners in the Municipalities category will receive a 5 percent bonus cost-share from MDC on an application that is selected for funding in the next round of the Tree Resource Improvement & Maintenance cost-share program. Citation of Merit winners are ineligible for this bonus.
- Winners in all other categories will receive a \$50 gift card.

## Competition Guidelines

- Entries must involve work that significantly improves the health, safety or appearance of trees in towns or cities. Well-planned and organized work may involve watering, mulching, proper pruning, tree planting, removal of hazardous or unhealthy trees, or preservation of valuable tree resources.
- The work or project may involve a large area, such as an entire community, or any important component, such as a street, neighborhood or park. More than one party may perform work, but coordination must be demonstrated.
- Multiple awards in each category may be presented.
- Communities are encouraged to become recognized as a Tree City USA, although this is not a requirement for an award.

## Awards Calendar

<b>Nov. 24, 2004</b>	Applications due
<b>December/January</b>	Field inspection of projects
<b>February</b>	Judging, winners notified
<b>March</b>	Awards presented at the MCFC Annual Conference (dates may vary)

## Program Co-sponsors

This program is jointly sponsored by the Missouri Department of Conservation and the Missouri Community Forestry Council. The Forestry Council strives to promote safe, healthy, attractive trees in our towns and cities. The Conservation Department is available to assist in the development of sustainable community forests throughout Missouri.

Equal opportunity to participate in and benefit from programs of the Department of Conservation is available to all individuals without regard to their race, color, national origin, sex, age or disability. Complaints of discrimination should be sent to the Department of Conservation, P.O. Box 180, Jefferson City, MO 65102, or U.S. Fish & Wildlife Service, 18th and "C" Streets NW, Washington D.C. 20240, Missouri Relay Center—1-800-735-2966 (TDD).
